Mirrors

-Wardrobe
Racks

BG Vocalist

Sax

Lead Vocalist

Narrator

*-Podium for Laptop & Firebox
-Music Stand
-Headset Offstage Stage Left*

The FROGTOWN show runs off a mac laptop at the Narrator position which provides a VGA video and stereo audio backing tracks (from a PreSonus Firebox interface with stereo 1/4" outputs).

4 live performers (2 Vocalists, 1 Narrator/Vocalist & Sax). Ideally we use 4 wireless hand-held vocal mics if available. Narrator uses a Digitech Vocalist Live Voice Processor, with stereo XLR outputs. Narrator also needs a 2nd mic on a boom stand at podium for narrating. Narrator needs a power strip, Sax needs electric and a single XLR.

Ideally there are 4 monitor wedges onstage, one for the lead vocalist, one for the sax, one for the Narrator and one for the BG vocalist.
